### IV. Other Information

1. Changes in significant subsidiaries which affected scope of consolidation during the period: None.
2. Special accounting methods for preparation of the consolidated balance sheets

Income tax expenses: A reasonable estimate of the effective tax rate after applying tax-effect accounting for the current fiscal year is made, and quarterly income before income taxes is multiplied by the corresponding effective tax rate. The amount shown as “income taxes” includes both “income taxes – current” and “income taxes – deferred.”

3. Changes in accounting policies, changes in accounting estimates, and retroactive restatement: None.
4. Number of shares outstanding

	Q1 2011	FY 2010

Average number of shares outstanding during period	1,398,191,137	1,398,370,776*

\* Q1 2010

## 5. Additional information

Application of Accounting Standard for Accounting Changes and Error Corrections and related matters: Application of Accounting Standard for Accounting Changes and Error Corrections (ASBJ Statement No. 24) and Guidance on Accounting Standard for Accounting Changes and Error Corrections (ASBJ Guidance No. 24) have been applied beginning from the quarter ended June 30, 2011, as accounting changes and corrections of past errors were made.

## V. Overview of Consolidated Results

### 1. Consolidated group results

The recovery of the global economy began slowing down during the April–June quarter due to high feedstock prices and the resurgence of financial uncertainty triggered by the European sovereign debt crisis. The Japanese economy showed some signs of recovery, with exports increasing after manufacturing activity bounced back following a temporary decline due to the Great East Japan Earthquake. The ongoing appreciation of the yen and power supply shortages, however, resulted in uncertainty regarding the economic outlook.

The consolidated quarterly results of Asahi Kasei Corp. and its consolidated subsidiaries and equity-method affiliates (the Asahi Kasei Group) reflected strong performance buoyed by increased deliveries of Hebel Haus™ unit homes in the Homes segment as well as high market prices supported by robust overseas demand in the Chemicals segment. Net sales for the quarter were ¥376.1 billion, an increase of ¥22.6 billion (6.4%) from a year ago. Operating income increased by ¥7.4 billion (32.4%) from the first quarter a year ago to ¥30.2 billion. Ordinary income increased by ¥9.6 billion (46.4%) from a year ago to ¥30.4 billion. Net income increased by ¥10.1 billion (109.3%) to ¥19.4 billion.

### 2. Results by operating segment

The Asahi Kasei Group's operations are described by major business classification: six reportable segments of Chemicals, Homes, Health Care, Fibers, Electronics, and Construction Materials and an "Others" category.

#### CHEMICALS

Sales increased by ¥7.6 billion (4.3%) from the first quarter a year ago to ¥186.0 billion and operating income increased by ¥4.1 billion (26.9%) to ¥19.4 billion.

Operating income in chemicals and derivative products operations increased as market prices, especially for acrylonitrile, remained high, buoyed by favorable demand in Asia. In polymer products operations, shipments of engineering plastics for domestic automotive applications decreased due to the impact of the Great East Japan Earthquake, but synthetic rubber for tires performed well thanks to robust demand in Asia. In specialty products operations, shipments of ion-exchange membranes increased, and home-use products such as Saran Wrap™ as well as functional additives for pharmaceuticals also performed well.

#### HOMES

Sales increased by ¥14.7 billion (22.8%) from the first quarter a year ago to ¥79.2 billion and operating income increased by ¥4.6 billion to ¥3.6 billion. Orders for order-built homes increased by ¥5.3 billion (5.9%) to ¥94.6 billion

In order-built homes operations, deliveries of both Hebel Haus™ unit homes and Hebel Maison™ apartment buildings increased. In pre-built homes operations, deliveries of condominiums increased. Housing-related operations also performed well.

#### HEALTH CARE

Sales increased by ¥0.6 billion (2.2%) from the first quarter a year ago to ¥29.4 billion and operating income decreased by ¥0.8 billion (23.2%) to ¥2.6 billion.

In pharmaceuticals operations, shipments of Recomodulin™ recombinant thrombomodulin increased steadily, but R&D expenditure increased. In devices-related operations, shipments of Planova™ virus removal filters increased substantially, but the strong yen had an impact on performance in each product category.

#### FIBERS

Sales increased by ¥1.3 billion (4.7%) from the first quarter a year ago to ¥27.7 billion and operating income increased by ¥0.2 billion (17.2%) to ¥1.4 billion.

Operations were impacted by the strong yen and high feedstock costs throughout the segment. Shipments of spunbond and other nonwovens increased, and those of Bemberg™ regenerated cellulose and Leona™ nylon 66 filament were favorable. Roica™ elastic polyurethane filament also performed well.

#### ELECTRONICS

Sales decreased by ¥1.1 billion (2.8%) from the first quarter a year ago to ¥39.8 billion and operating income decreased by ¥0.4 billion (8.5%) to ¥4.8 billion.

In electronic devices operations, shipments increased steadily, especially of mixed-signal LSIs for smartphones, but operating income was impacted by a decline in product prices and the strong appreciation of the yen. In electronic materials operations, shipments of Hipore™ Li-ion battery separator increased, but operating income was impacted by a decline in product prices and high feedstock costs.

#### CONSTRUCTION MATERIALS

Sales decreased by ¥0.9 billion (8.4%) from the first quarter a year ago to ¥10.1 billion and operating income decreased by ¥0.1 billion (29.1%) to ¥0.2 billion.

Although structural materials operations performed well, other operations throughout the segment were impacted by the Great East Japan Earthquake. Effects of the earthquake included temporary suspension of operation at the Neoma Foam Plant, which manufactures phenolic foam insulation panels, and the Sakai Plant, which manufactures Hebel™ autoclaved aerated concrete panels, both in Ibaraki Prefecture, as well as suspension or postponement of work on many construction projects, which impacted foundation systems operations in particular.

#### OTHERS

Sales in “Others” comprising engineering operations and employment agency/staffing operations increased by ¥0.4 billion (12.6%) from the first quarter a year ago to ¥4.0 billion, and operating income increased by ¥0.1 billion (18.6%) to ¥0.4 billion.
